

## Caroline Spelman MP

Welcome to the life of Caroline Spelman, MP for Meriden and Chairman of the Conservative Party. This high powered Tory MP & Chairman of the conservative party paid her nanny from her Parliamentary expenses and then lied to cover it up.

Tory MP Caroline Spelman is in charge of regulating her colleagues' expenses.

Conservative Party chairman Caroline Spelman has admitted using her MP's parliamentary allowance for payments to her children's former nanny. It turns out that she is also a liar as she told BBC's Newsnight that the money, paid in 1997 and 1998, was for secretarial work the nanny did but when the NANNY Tina Haynes was asked directly if she did any political work for Spelman she said "no". So here we have a high paid MP basically making the taxpayer stump up for the care of her children, it's no bad enough that the government steal from fathers and children via the CSA but the likes of Spelman expect you to pay for their kids care too. It's getting so every other day we hear some other scandal about MP's filling their pockets but this one is particularly vile as men are being jailed by CSA, others are having their licences removed and the government even sanctioned public naming and shaming of men involved in CSA disputes. If nothing else it stands as absolute proof as to why we the public should have every right to examine every aspect of MP'S expenses, something they fought in the courts to avoid.
