

Election

So how many untrustworthy scumbags do we still have in Parliament? Who are the squeaky clean and who are the greedy "let's fill our pockets and get what we can, we have found the gravey train" brigade? Let us identify them now, so we can keep a close eye on their performance and their expenses. As for CSA/C-MEC We believe that they may be committing fraud on a massive scale, we are investigating some very new information and we do hope to bring you some very interesting information in the coming months. We do recommend not dealing with them by phone at all, don't even confirm your name to them. And do not sign any paperwork from them at all. More Soon.
